Work Release Program	22
Education/Vocation Release Program	23
State Hospital Training Program	24
Office of Manpower Development Job Placements	24
IV. Bridgewater State Hospital	
Monthly Utilization Report for Seclusion and Restraint	25

MONTHLY STATISTICAL REPORT HIGHLIGHTS

January 1989

This report presents basic statistical information on admissions to and releases from the Department of Correction as well as participation in some inmate programs (furloughs, state hospital and work release). The statistics in this report represent transactions that occurred from the first day of the present month to the last Saturday of the present month. Therefore the January figures cover the period from January 1, 1989 to January 28, 1989.

Population

During January the DOC population increased by 113 offenders from 6827 to 6940 (excluding those at Bridgewater, county facilities, federal prisons and prisons in other states). During the past year the DOC population increased by 419 offenders from 6521 in January, 1988 to 6940 in January, 1989. This represents an increase of 6%.

Admissions

During January there were 303 offenders committed to the DOC from courts including 138 to Cedar Junction, 60 to Concord and 105 to Framingham. This represents an increase of 13% over the number of court commitments during the same period in 1988 (N=267). For Cedar Junction this represents an increase of 23% over 1987 (N=112); for Concord this represents a decrease of 14% over 1987 (N=70); and for Framingham this represents an increase of 24% over 1987 (N=85).

During January there were 90 offenders returned to the DOC as parole violators. This represents a decrease of 8% over the number of parole violators returned during the same period in 1988 (N=98).

Releases

During January, 129 offenders were paroled to the street, 111 were discharged, and 9 were released at expiration of sentence. This represents an increase of 2% over the number of offenders paroled to the street during the same period in 1988 (N=127), an increase of 4% over the number of offenders discharged in January 8, 1988 (N=107), and an increase of 73% over the number of offenders released at expiration of sentence during the same period in 1988 (N=33).

There were 91 males released to the street from secure DOC facilities in January. Of those, 51 (56%) were parole violators, 31 (34%) were first releases that had been in a lower security facility during their term of incarceration, and 9 (10%) were first releases that had not been in a lower security institution during their incarceration.

Escapes

During January, 5 offenders were declared on escape, and 6 offenders were returned to custody from escape status. The number of escapes increased by one compared to January, 1988 (N=6), and the number of returns from escape stayed the same compared to January, 1988 (N=6).

Lower Security Statistics

During January, 177 offenders were transferred from higher security facilities to lower security facilities. In addition, 79 were returned from lower security facilities to secure institutions. A comparison with the January, 1988 figures shows that transfers from higher security to lower have decreased by 9% (N=195) and returns to higher security from lower have decreased by 5% (N=81).

Lifers

At the end of January, there were 840 lifers in the DOC including Bridgewater.

There were 353 for the offense of murder-1 (42%), 418 for murder-2 (50%), 20 for accessory to murder, armed robbery, unarmed robbery, armed assault or armed burglary (2%) and 49 for sex offenses (6%).

Furlough Statistics

During January, a total of 152 furloughs were granted to 118 offenders, for an average of 1.3 furloughs per offender furloughed. These figures are lower than those for January, 1988 (247 furloughs granted to 176 offenders).

During the month, furloughs were granted to 0.4% of the maximum/medium population, 4.6% of the lower security population, and 19.2% of the contract pre-release population. Overall, furloughs were granted to 1.7 percent of the total population.
There were zero offenders declared on escape during January. At the end of the month there were 11 offenders on furlough escape status. This figure represents all outstanding escapes since the inception of the furlough program in November, 1972.

Work/Education Release

At the end of January, there were 522 offenders in work release programs working at 532 different jobs. These figures are higher than those for January, 1988 (465 offenders working at 488 jobs).

At the end of January, there were 38 offenders in education release programs - a figure that is lower than the corresponding figure for January, 1988 (N=47).

DEPARTMENT POPULATION
AS OF JANUARY 28, 1989

DOC Facilities

2	4	11	9	54	11	1	0	92

1. Total hours does not include time spent in seclusion and/or restraint by four special needs patients who reside on the Admissions and Medical Units.

2. Data represents the calendar month (January 1-31). To standardize these figures for a 1 month period, multiply by 0.98.

3. Figures constitute numbers of patients discharged from seclusion or restraint during the month.

MONTHLY STATISTICAL REPORT HIGHLIGHTS

February 1989

This report presents basic statistical information on admissions to and releases from the Department of Correction as well as participation in some inmate programs (furloughs, state hospital and work release). The statistics in this report represent transactions that occurred from the last Sunday of the preceding month to the last Saturday of the present month. Therefore the February figures cover the period from January 29, 1989 to February 25, 1989.

Population

During February the DOC population increased by 137 offenders from 6940 to 7077 (excluding those at Bridgewater, county facilities, federal prisons and prisons in other states). During the past year the DOC population increased by 448 offenders from 6629 in February, 1988 to 7077 in February, 1989. This represents an increase of 7%.

Admissions

During February there were 296 offenders committed to the DOC from courts including 159 to Cedar Junction, 62 to Concord and 75 to Framingham. To date there have been 599 court commitments to the DOC during 1989, including 297 to Cedar Junction, 122 to Concord and 180 to Framingham. This represents an increase of 12% over the number of court commitments during the same period in 1988 (N=535). For Cedar Junction this represents an increase of 31% over 1988 (N=226); for Concord this represents a decrease of 10% over 1988 (N=136); and for Framingham this represents an increase of 4% over 1988 (N=173).

During February there were 74 offenders returned to the DOC as parole violators. This represents a decrease of 21% over the number of parole violators returned during the same period in 1988 (N=94).

MONTHLY STATISTICAL REPORT HIGHLIGHTS

February 1989

This report presents basic statistical information on admissions to and releases from the Department of Correction as well as participation in some inmate programs (furloughs, state hospital and work release). The statistics in this report represent transactions that occurred from the last Sunday of the preceding month to the last Saturday of the present month. Therefore the February figures cover the period from January 29, 1989 to February 25, 1989.

Population

During February the DOC population increased by 137 offenders from 6940 to 7077 (excluding those at Bridgewater, county facilities, federal prisons and prisons in other states). During the past year the DOC population increased by 448 offenders from 6629 in February, 1988 to 7077 in February, 1989. This represents an increase of 7%.

Admissions

During February there were 296 offenders committed to the DOC from courts including 159 to Cedar Junction, 62 to Concord and 75 to Framingham. To date there have been 599 court commitments to the DOC during 1989, including 297 to Cedar Junction, 122 to Concord and 180 to Framingham. This represents an increase of 12% over the number of court commitments during the same period in 1988 (N=535). For Cedar Junction this represents an increase of 31% over 1988 (N=226); for Concord this represents a decrease of 10% over 1988 (N=136); and for Framingham this represents an increase of 4% over 1988 (N=173).

During February there were 74 offenders returned to the DOC as parole violators. This represents a decrease of 21% over the number of parole violators returned during the same period in 1988 (N=94).

Releases

During February, 128 offenders were paroled to the street, 123 were discharged, and 9 were released at expiration of sentence. To date there have been 257 offenders paroled to the street during 1989, 234 offenders discharged during 1989 and 18 offenders released by expiration of sentence during 1989. This represents an increase of 2% over the number of offenders paroled to the street during the same period in 1988 (N=253), an increase of 23% over the number of offenders discharged during the same period in 1988 (N=191), and a decrease of 71% over the number of offenders released at expiration of sentence during the same period in 1988 (N=63).

There were 85 males released to the street from secure DOC facilities in February. Of those, 48 (56%) were parole violators, 17 (20%) were first releases that had been in a lower security facility during their term of incarceration, and 20 (24%) were first releases that had not been in a lower security institution during their incarceration.

Escapes

During February, 9 offenders were declared on escape, and 9 offenders were returned to custody from escape status. The number of escapes decreased by three compared to February, 1988 (N=12), and the number of returns from escape decreased by six compared to February, 1988 (N=15).

Lower Security Statistics

During February, 274 offenders were transferred from higher security facilities to lower security facilities. In addition, 87 were returned from lower security facilities to secure institutions. A comparison with the February, 1988 figures shows that transfers from higher security to lower have increased by 73% (N=158) and returns to higher security from lower have increased by 7% (N=81).

Lifers

At the end of February, there were 845 lifers in the DOC including Bridgewater. There were 357 for the offense of murder-1 (42%), 420 for murder-2 (50%), 20 for accessory to murder, armed robbery, unarmed robbery, armed assault or armed burglary (2%) and 48 for sex offenses (6%).

Furlough Statistics

During February, a total of 146 furloughs were granted to 111 offenders, for an average of 1.3 furloughs per offender furloughed. These figures are lower than those for February, 1988 (246 furloughs granted to 164 offenders).

During the month, furloughs were granted to 0.3% of the maximum/medium population, 4.5% of the lower security population, and 15.0% of the contract pre-release population. Overall, furloughs were granted to 1.6 percent of the total population.
There were zero offenders declared on escape during February. At the end of the month there were 11 offenders on furlough escape status. This figure represents all outstanding escapes since the inception of the furlough program in November, 1972.

Work/Education Release

At the end of February, there were 502 offenders in work release programs working at 522 different jobs. These figures are higher than those for February, 1988 (467 offenders working at 491 jobs).

At the end of February, there were 38 offenders in education release programs - a figure that is lower than the corresponding figure for February, 1988 (N=52).

1	2	6	8	23	10	1	1	52

1. Total hours does not include time spent in seclusion and/or restraint by four special needs patients who reside on the Admissions and Medical Units.

2. Data represents the calendar month (February 1-28). To standardize these figures for a 1 month period, multiply by 1.09.

3. Figures constitute numbers of patients discharged from seclusion or restraint during the month.

MONTHLY STATISTICAL REPORT HIGHLIGHTS

March 1989

This report presents basic statistical information on admissions to and releases from the Department of Correction as well as participation in some inmate programs (furloughs, state hospital and work release). The statistics in this report represent transactions that occurred from the last Sunday of the preceding month to the last Saturday of the present month. Therefore the March figures cover the period from February 26, 1989 to March 25, 1989.

Population

During March the DOC population increased by 121 offenders from 7077 to 7198 (excluding those at Bridgewater, county facilities, federal prisons and prisons in other states). During the past year the DOC population increased by 474 offenders from 6724 in March, 1988 to 7198 in March, 1989. This represents an increase of 7%.

Admissions

During March there were 310 offenders committed to the DOC from courts including 146 to Cedar Junction, 62 to Concord and 102 to Framingham. To date there have been 909 court commitments to the DOC during 1989, including 443 to Cedar Junction, 184 to Concord and 282 to Framingham. This represents an increase of 9% over the number of court commitments during the same period in 1988 (N=835). For Cedar Junction this represents an increase of 21% over 1988 (N=367); for Concord this represents a decrease of 6% over 1988 (N=196); and for Framingham this represents an increase of 4% over 1988 (N=272).

During March there were 112 offenders returned to the DOC as parole violators. This represents an increase of 15% over the number of parole violators returned during the same period in 1988 (N=97).

Releases

During March, 130 offenders were paroled to the street, 106 were discharged, and 8 were released at expiration of sentence. To date there have been 387 offenders paroled to the street during 1989, 340 offenders discharged during 1989 and 26 offenders released by expiration of sentence during 1989. This represents a decrease of 5% over the number of offenders paroled to the street during the same period in 1988 (N=409), an increase of 19% over the number of offenders discharged during the same period in 1988 (N=285), and a decrease of 73% over the number of offenders released at expiration of sentence during the same period in 1988 (N=97).

There were 89 males released to the street from secure DOC facilities in March. Of those, 38 (43%) were parole violators, 23 (26%) were first releases that had been in a lower security facility during their term of incarceration, and 28 (31%) were first releases that had not been in a lower security institution during their incarceration.

Escapes

During March, 9 offenders were declared on escape, and 11 offenders were returned to custody from escape status. The number of escapes decreased by four compared to March, 1988 (N=13), and the number of returns from escape increased by one compared to March, 1988 (N=10).

Lower Security Statistics

During March, 209 offenders were transferred from higher security facilities to lower security facilities. In addition, 79 were returned from lower security facilities to secure institutions. A comparison with the March, 1988 figures shows that transfers from higher security to lower have increased by 19% (N=258) and returns to higher security from lower have increased by 7% (N=74).

Lifers

At the end of March, there were 845 lifers in the DOC including Bridgewater. There were 358 for the offense of murder-1 (42%), 418 for murder-2 (49%), 21 for accessory to murder, armed robbery, unarmed robbery, armed assault or armed burglary (2%) and 48 for sex offenses (6%).

Furlough Statistics

During March, a total of 163 furloughs were granted to 101 offenders, for an average of 1.6 furloughs per offender furloughed. These figures are lower than those for March, 1988 (262 furloughs granted to 160 offenders).

During the month, furloughs were granted to 0.1% of the maximum/medium population, 4.0% of the lower security population, and 14.5% of the contract pre-release population. Overall, furloughs were granted to 1.4 percent of the total population.
There were zero offenders declared on furlough escape during March. At the end of the month there were 11 offenders on furlough escape status. This figure represents all outstanding escapes since the inception of the furlough program in November, 1972.

Work/Education Release

At the end of March, there were 510 offenders in work release programs working at 533 different jobs. These figures are higher than those for March, 1988 (455 offenders working at 476 jobs).

At the end of March, there were 34 offenders in education release programs - a figure that is lower than the corresponding figure for March, 1988 (N=53).

1. Total hours does not include time spent in seclusion and/or restraint by four special needs patients who reside on the Admissions and Medical Units.

2. Data represents the calendar month (March 1-31). To standardize these figures for a 1 month (i.e., one-twelfth year) period, multiply by 0.98.

3. Figures constitute numbers of patients discharged from seclusion or restraint during the month.

MONTHLY STATISTICAL REPORT HIGHLIGHTS

April 1989

This report presents basic statistical information on admissions to and releases from the Department of Correction as well as participation in some inmate programs (furloughs, state hospital and work release). The statistics in this report represent transactions that occurred from the last Sunday of the preceding month to the last Saturday of the present month. Therefore the April figures cover the period from March 26, 1989 to April 29 1989.

Population

During April the DOC population increased by 74 offenders from 7198 to 7272 (excluding those at Bridgewater, county facilities, federal prisons and prisons in other states). During the past year the DOC population increased by 520 offenders from 6752 in April, 1988 to 7272 in April, 1989. This represents an increase of 8%.

Admissions

During April there were 435 offenders committed to the DOC from courts including 242 to Cedar Junction, 96 to Concord and 97 to Framingham. To date there have been 1344 court commitments to the DOC during 1989, including 685 to Cedar Junction, 280 to Concord and 379 to Framingham. This represents an increase of 27% over the number of court commitments during the same period in 1988 (N=1062). For Cedar Junction this represents an increase of 45% over 1988 (N=474); for Concord this represents an increase of 16% over 1988 (N=241); and for Framingham this represents an increase of 9% over 1988 (N=347).

During April there were 104 offenders returned to the DOC as parole violators. To date there were 380 parole violators returned to the DOC during 1989. This represents a

decrease of 5% over the number of parole violators returned during the same period in 1988 (N=401).

Releases

During April, 170 offenders were paroled to the street, 128 were discharged, and 19 were released by expiration of sentence. To date there have been 557 offenders paroled to the street during 1989, 468 offenders discharged during 1989 and 45 offenders released by expiration of sentence during 1989. This represents a decrease of 2% over the number of offenders paroled to the street during the same period in 1988 (N=567), an increase of 16% over the number of offenders discharged during the same period in 1988 (N=405), and a decrease of 65% over the number of offenders released at expiration of sentence during the same period in 1988 (N=127).

There were 78 males released to the street from secure DOC facilities in April. Of those, 35 (45%) were parole violators, 21 (27%) were first releases that had been in a lower security facility during their term of incarceration, and 22 (28%) were first releases that had not been in a lower security institution during their incarceration.

Escapes

During April, 13 offenders were declared on escape, and 12 offenders were returned to custody from escape status. The number of escapes decreased by one compared to April, 1988 (N=14), and the number of returns from escape increased by three compared to April, 1988 (N=9).

Lower Security Statistics

During April, 289 offenders were transferred from higher security facilities to lower security facilities. In addition, 90 were returned from lower security facilities to secure institutions. A comparison with the April, 1988 figures shows that transfers from higher

security to lower have increased by 44% (N=201) and returns to higher security from lower have decreased by 10% (N=100).

Lifers

At the end of April, there were 848 lifers in the DOC including Bridgewater. There were 360 for the offense of murder-1 (42%), 419 for murder-2 (49%), 21 for accessory to murder, armed robbery, unarmed robbery, armed assault or armed burglary (2%) and 48 for sex offenses (6%).

Furlough Statistics

During April, a total of 173 furloughs were granted to 117 offenders, for an average of 1.5 furloughs per offender furloughed. These figures are lower than those for April, 1988 (303 furloughs granted to 189 offenders).

During the month, furloughs were granted to 0.2% of the maximum/medium population, 4.0% of the lower security population, and 19.9% of the contract pre-release population. Overall, furloughs were granted to 1.6 percent of the total population. There were zero offenders declared on furlough escape during April. At the end of the month there were 11 offenders on furlough escape status. This figure represents all outstanding escapes since the inception of the furlough program in November, 1972.

Work/Education Release

At the end of April, there were 522 offenders in work release programs working at 540 different jobs. These figures are higher than those for April, 1988 (478 offenders working at 500 jobs).

At the end of April, there were 33 offenders in education release programs - a figure that is lower than the corresponding figure for April, 1988 (N=47).

0-1 Hour	1.25-2 Hours	2.25-6 Hours	6.25-12 Hours	12.25-24 Hours	24.25-48 Hours	48.25-96 Hours	96+ Hours	Total Number[3] of Restraints
1	0	10	16	35	7	4	0	73

1. Total hours does not include time spent in seclusion and/or restraint by four special needs patients who reside on the Admissions and Medical Units.

2. Data represents the calendar month (April 1-30). To standardize these figures for a 1 month (i.e., one-twelfth year) period, multiply by 1.01.

3. Figures constitute numbers of patients discharged from seclusion or restraint during the month.
